 Bio Jeshi is a trouble-maker! He always likes jumping out at visitors and giving them a fright. He never means any harm and pretty soon he goes away.

Join the Fight to Save the Mountain Gorillas

Welcome to iGORILLA! The first app dedicated to supporting the plight of Africa's endangered mountain gorilla. Now you can follow the daily lives of the gorillas and stay up-to-date with the efforts of the park rangers as they protect the gorillas and the habitat that is so important for their survival. Select a gorilla family, find out about their individual members and follow them through written reports and videos directly from Virunga National Park. Download iGORILLA and a portion of the proceeds will go directly to the field.
