Capabilities statement

Core competencies
O’Reilly online learning is a platform that helps nearly every government organization and employee prepare for what’s coming next in the era of constant change and IT transformation. Our experts track the faint signals of emerging technology trends to pinpoint the knowledge your agency needs to remain aligned with change. The platform provides continuous training in these areas and allows individuals to build skills in leading technologies like cloud computing, software architecture, cybersecurity, artificial intelligence, and data science to solve problems and close knowledge gaps to reach imperative career and business goals.

Past performance
O’Reilly online learning is a trusted global leader in learning and training tools for all types of government agencies. The list below highlights a sampling of federal cabinets, state and local agencies, and independent agencies on contract.

- US Department of Defense
- US Department of Homeland Security
